AI summary failed: [object Object]

PROFESSIONAL SUMMARY

Junior Frontend Developer with hands-on experience building responsive, user-friendly web applications using React, JavaScript, and Tailwind CSS. Strong foundation in component-based architecture, REST API integration, and modern frontend tooling. Passionate about continuous learning, clean code, and delivering maintainable UI solutions. Seeking an entry-level Frontend Developer role or internship, including remote opportunities.

TECHNICAL SKILLS

Frontend Technologies - HTML5 - CSS3 - JavaScript (ES6+) - React - Tailwind CSS - Redux - Vite - React Hooks (useState, useEffect, useRef)

Backend & APIs - Python - Django - FastAPI - PHP - REST APIs (Axios, Fetch)

Databases - MySQL - PostgreSQL - MongoDB

Tools & Others - Git - GitHub - Docker - Linux - Jest - Responsive Web Design

PROFESSIONAL EXPERIENCE

The Bulb Institute, Lagos *Software Developer Trainee* | Sept 2023 – Present - Developed a Selenium-based web scraper to automate job listings extraction and stored processed data in PostgreSQL. - Built a PHP & MySQL User Management System with full CRUD functionality for administrators. - Collaborated on frontend tasks involving form validation, UI responsiveness, and component reuse.

ALX Africa

Software Engineering Trainee | Jul 2022 – Aug 2023 - Collaborated through pair programming and contributed to team-based projects using Git and GitHub. - Gained practical experience in full software development lifecycle and version control workflows.

PROJECTS

Responsive Registration Form (React, Tailwind CSS) - Built a responsive registration form with controlled inputs and client-side validation. - GitHub: https://github.com/Kurller/RegistrationForm - Live Demo: https://registration-form-one-mu.vercel.app/

Login / Signup UI (React, Tailwind CSS) - Designed a modern authentication interface with toggle modes and smooth UI transitions. - GitHub: https://github.com/Kurller/Login_Form - Live Demo: https://login-form-sepia-psi.vercel.app/

OTP Generator App (React Hooks) - Developed a 6-digit OTP generator with countdown timer and auto-expiration logic. - GitHub: https://github.com/Kurller/OTP_GENERATOR - Live Demo: https://otp-generator-green.vercel.app/

EDUCATION

B.Tech – PureandApplied Mathematics

Ladoke Akintola University of Technology (LAUTECH), Ogbomoso

CERTIFICATIONS

• ResponsiveWebDesign – FreeCodeCamp

• JavaScript Developer – FreeCodeCamp

• Software Developer – ALX Africa

• Python Intermediate – Bincom Academy
